

Best Paper Award presented to M Tech. student N Shivaram Venkatesh

N Shivaram Venkatesh, M Tech. student received the Best Paper Award at the National Conference held at Vishveshwarya Group of Institutions, Gautam Budh Nagar. The two day Conference titled “Emerging Trends in Engineering and Technology” was organized on 16-17 March 2013.

The paper “Logical Level Capacitance and Power Modeling for Digital Logic Gates” talks about ways to reduce the power consumption in Deep Sub Micron Technology through Capacitance Modeling. Capacitance Modeling scales down the power and thus Power Modeling is done for the circuit devices.

Expressing pleasure after getting the award, Shivaram said, “Working under the guidance of Naveen Babu and Sonal Singhal was very motivating and their expertise in the field was a bonus.”
