

Come and create a world-class institution.

Shiv Nadar University seeks founding faculty members.

The University is a research-led, interdisciplinary institution at par with premier educational institutions across the world. Our effort and commitment is to provide a comprehensive, balanced and demanding education in multiple disciplines.

The pillars of the University and the key to making this dream a reality is the founding faculty. They will not only engage in teaching and research, but will also be central to the task of institution building. We are looking for individuals who will lead, exemplify and be responsible for the fulfillment of the University's vision. They will be the beacons that will draw the best minds to be a part of a community of educators and researchers.

We are committed to offering our faculty four essential features that will form the core of the work experience at SNU: academic and intellectual freedom to express ideas, both inside and outside the classroom; financial and infrastructural support for research and other scholarly and creative activities; outstanding students selected through a rigorous, merit based-need blind admission process; competitive compensation packages comparable to those available in other parts of the world. It will indeed be the founding faculty who will create and mould an educational institution ready for the challenges of the 21st century.
